

PPP HEALTHCARE

# Your health in expert hands

**Personal Health**

Private healthcare cover for individuals

## We know health

---

**How precious it is**

**How much it means**

**How to help you live life well**

We were founded in 1940 by doctors and hospitals working together. Our founders came together to bring quality healthcare to more people. And we're still shaped by clinicians today.

Every day we use what we learned on the ward round, at the clinic, and in the operating theatre to make AXA PPP healthcare the best it can be for you.

We look after the health of over 3 million people. Reassuring them when they're worried. Helping them get the care they need when they're ill. Helping them and their families live well every day.

We'll be there when you need us most. Nothing's more important to us.

# Helping you and your family live well every day.

**With access to over  
23,000 medical specialists,  
250 hospitals and 250  
scanning centres across the  
UK, you're never far from the  
expert help you need.**

## Welcome to Personal Health

When life throws you an unexpected challenge, fast diagnosis and treatment are what matter most, along with genuine help, support and understanding from people who care. The earlier you get help, the sooner you can start feeling like yourself again.

With Personal Health cover you're seen and treated quickly when you're ill. You see a consultant, rather than a junior doctor or registrar. You're treated in a private hospital, or the private wing of an NHS hospital. And you have your treatment in comfort – usually your own room, an en-suite bathroom, and flexible visiting hours.

What's more, you can access breakthrough treatments, including new cancer drugs, as soon as they're licensed – meaning there's evidence they work.

Like all private healthcare plans, we can't cover everything. Out-patient drugs aren't covered on this plan, and we may limit what you're covered for depending on your health when you join us.

You're irreplaceable. You're a one-of-a-kind combination of the genes you were born with and the experiences you've had. Whatever it takes to be well, we think you're worth it.

## Fast Track Appointments

### When you need to see a specialist quickly

Our Fast Track Appointments team will make it happen. We know each doctor's specialism and sub-specialism so we can get you to the right person first time.

1. You just need an open referral from a GP. This is a referral that doesn't name the specialist you'll see.
2. We'll then book an appointment for you, at a time and a place that suits you best.
3. Or we'll give you a choice of up to three doctors with the right specialism to treat you, and you can get in touch when you're ready.

On average, members who use our Fast Track Appointments service are seen twice as quickly.\*

\*Compared with members whose GPs have referred them to a named private specialist (2016 Fast Track Appointments service data, recorded from the date the member called our Personal Advisory team).

- ✓ **We'll talk to different hospital departments to coordinate your care. We'll make sure that any appointments we make fit in with you.**
- ✓ **All our specialists are consultant-level in the NHS – never junior or registrar. They can provide advice and treatment for the most complex and challenging health conditions.**
- ✓ **If you call us with a suspected cancer or heart condition, the moment we get off the phone with you we'll get you an urgent appointment with a specialist.**

## Extensive cancer and heart care

### Lean on us if you're ever seriously ill

When it comes to cancer and heart conditions, there's no road map to follow. But that doesn't mean you have to find your way on your own. We're here to guide you.

We've got a team of nurses who specialise in these conditions. Every one of them knows what a diagnosis like this means. And they're just a phone call away. Whether or not you've had your diagnosis, they'll be there for you. A listening ear at the end of the phone and a soothing voice to answer your questions. They'll be there for your family too, to make things a little easier for the people you're closest to.

We know how much our members worry about these conditions. That's why cancer and heart care is part of the core cover we provide.

### Practical and emotional support when you need it

For many of our members, having a listening ear at the end of the phone is something they couldn't do without.

If you become seriously ill, our dedicated heart and cancer nurses will have the

time to get to know you, understand your condition and listen to what you're going through. They'll explain treatment choices in words that make sense. And they'll advise you on everything from eating well during chemotherapy to coping at home after heart surgery.

### Shaping your healthcare around you

Our research team scan the horizon for the latest cancer drugs so we can bring them to you as soon as they're licensed – meaning there's evidence they work.

We'll research your condition to find out what treatments are available. And we'll go through specialist advice, peer-reviewed evidence, clinical trials and all the data surrounding it to work out whether it can be an option for you. Nothing's more important to us than getting you well again.

**“Lucy was of tremendous help to me. She helped me understand the nature of the operation and post-operative recovery and what to expect. I cannot thank her enough.”**

Mr A Hamilton, AXA PPP healthcare member

**“Everything about my care was first class. I had my dedicated nurse just a call away. I'm sure the way I was treated helped me to a full recovery. Thank you everyone.”**

Mrs. Hodgins, AXA PPP healthcare member

## Enhanced family cover

### We'll be here to hold your hand

With enhanced family cover from Personal Health, we're here for you day and night, just as you're there for your loved ones. We'll help you protect your family and keep everyone well. And, amidst the whirl of family life, we'll have the time to support you – whenever you need us.

### Free cover for new arrivals

When your baby arrives, you'll feel reassured to know your little one has cover on your plan too (restrictions may apply). Just give us a quick call to share your news and cover for your new-born will be free until your renewal date.

### A helping hand in the early days

Being a new parent is a joyful but daunting time. Even if you've had a baby before, it can be hard to know everything's as it should be. With enhanced family cover you'll have a fully trained midwife to call when you need reassurance. They'll check how everything's going with you and your baby – and help you adjust to your vital new role.

### Cover for your young ones

Kids have unique concerns. Things like prominent ears or a port wine stain birthmark on the face can really affect who they are – and who they become. Personal Health cover can help you sort things like this out before they become a bigger problem.

### Accommodation when your child is in hospital

Being away from home can be a worrying time for children, especially when their stay is in hospital. We make it easier for you to be near your child while they receive treatment covered by the plan. We'll pay for one parent to stay with them in hospital, and up to £100 a night towards accommodation for another in a nearby hotel (up to £500 a year).

### Answers when you need them

We all want answers we can trust. With Personal Health cover, there's no need to waste time wading through the web for help. Our online health centres will guide you straight to the information you need.

If you'd rather speak to someone, an experienced Health at Hand nurse is just a phone call away. It's a bit like having a medical expert in the family. They'll help you tell whether a rash looks like meningitis, or whether it's mild eczema. If your ageing parent's cough is getting worse, they'll help you work out whether they need a doctor or a dose of honey and lemon. If your eight-year old son has anger management issues, they'll talk you through ways you can help him.

**Nurse and counsellor  
helpline open 24/7**

**Midwives and  
pharmacists available  
Monday to Friday – 8am to 8pm  
Saturday – 8am to 4pm  
Sunday – 8am to 12pm**

# Doctor@Hand is a GP service that fits around your life.

## Fast physiotherapy service

### When you need to go straight to the physio

You can never tell when muscle, bone or joint trouble will stop you in your tracks. But you can make sure you feel better faster when it happens.

With Personal Health cover, you can arrange to talk to a Working Body physiotherapist over the phone as soon as pain strikes – and you won't even need a GP referral.

They'll assess your symptoms, and talk to you about what they could mean. If they think exercises could ease your pain, they'll recommend some you can try at home. And if you need further treatment, they'll help you plan what to do next. If you've chosen the Therapies option, this might be hands-on physiotherapy treatment.

## GP appointments when you need them

### See a doctor when you want to, through your smartphone or laptop

Imagine being able to see a GP when it suits you, without even leaving the house?

**Doctor@Hand** is the GP service that fits around your life, not the other way round. You can choose a time that suits you best and speak to a doctor wherever you are, by video or by phone. Book online or through the app and you'll have your consultation within hours – it couldn't be easier. Appointments are 20 minutes long, giving you plenty of time to talk about your health concerns.

Simply pay as you go with your discount as an AXA PPP healthcare member, or add the service to your Personal Health plan (you get up to five consultations a year with the Extended Cover option). **Doctor@Hand** is delivered by Doctor Care Anywhere.

## Health and wellness rewards

### When you want to live a healthier life

We're here for you when you're under the weather, or feeling as right as rain.

When you're an AXA PPP healthcare member, you can buy an annual membership with PureGym for half the usual price\*, and enjoy discounts at gyms like Nuffield and British Military Fitness.

You can buy vitamins, supplements, and sports equipment on Active+, our online health and wellness shop. And you can explore the world of wearable tech – from smart scales that analyse your BMI, to watches that coach you through an on-screen workout.

\*Price based on 50% off PureGym's non-promotional monthly price x12 including any relevant joining fee. For full terms and conditions visit: [myactiveplus.com/legal/puregym-terms-and-conditions](https://myactiveplus.com/legal/puregym-terms-and-conditions)

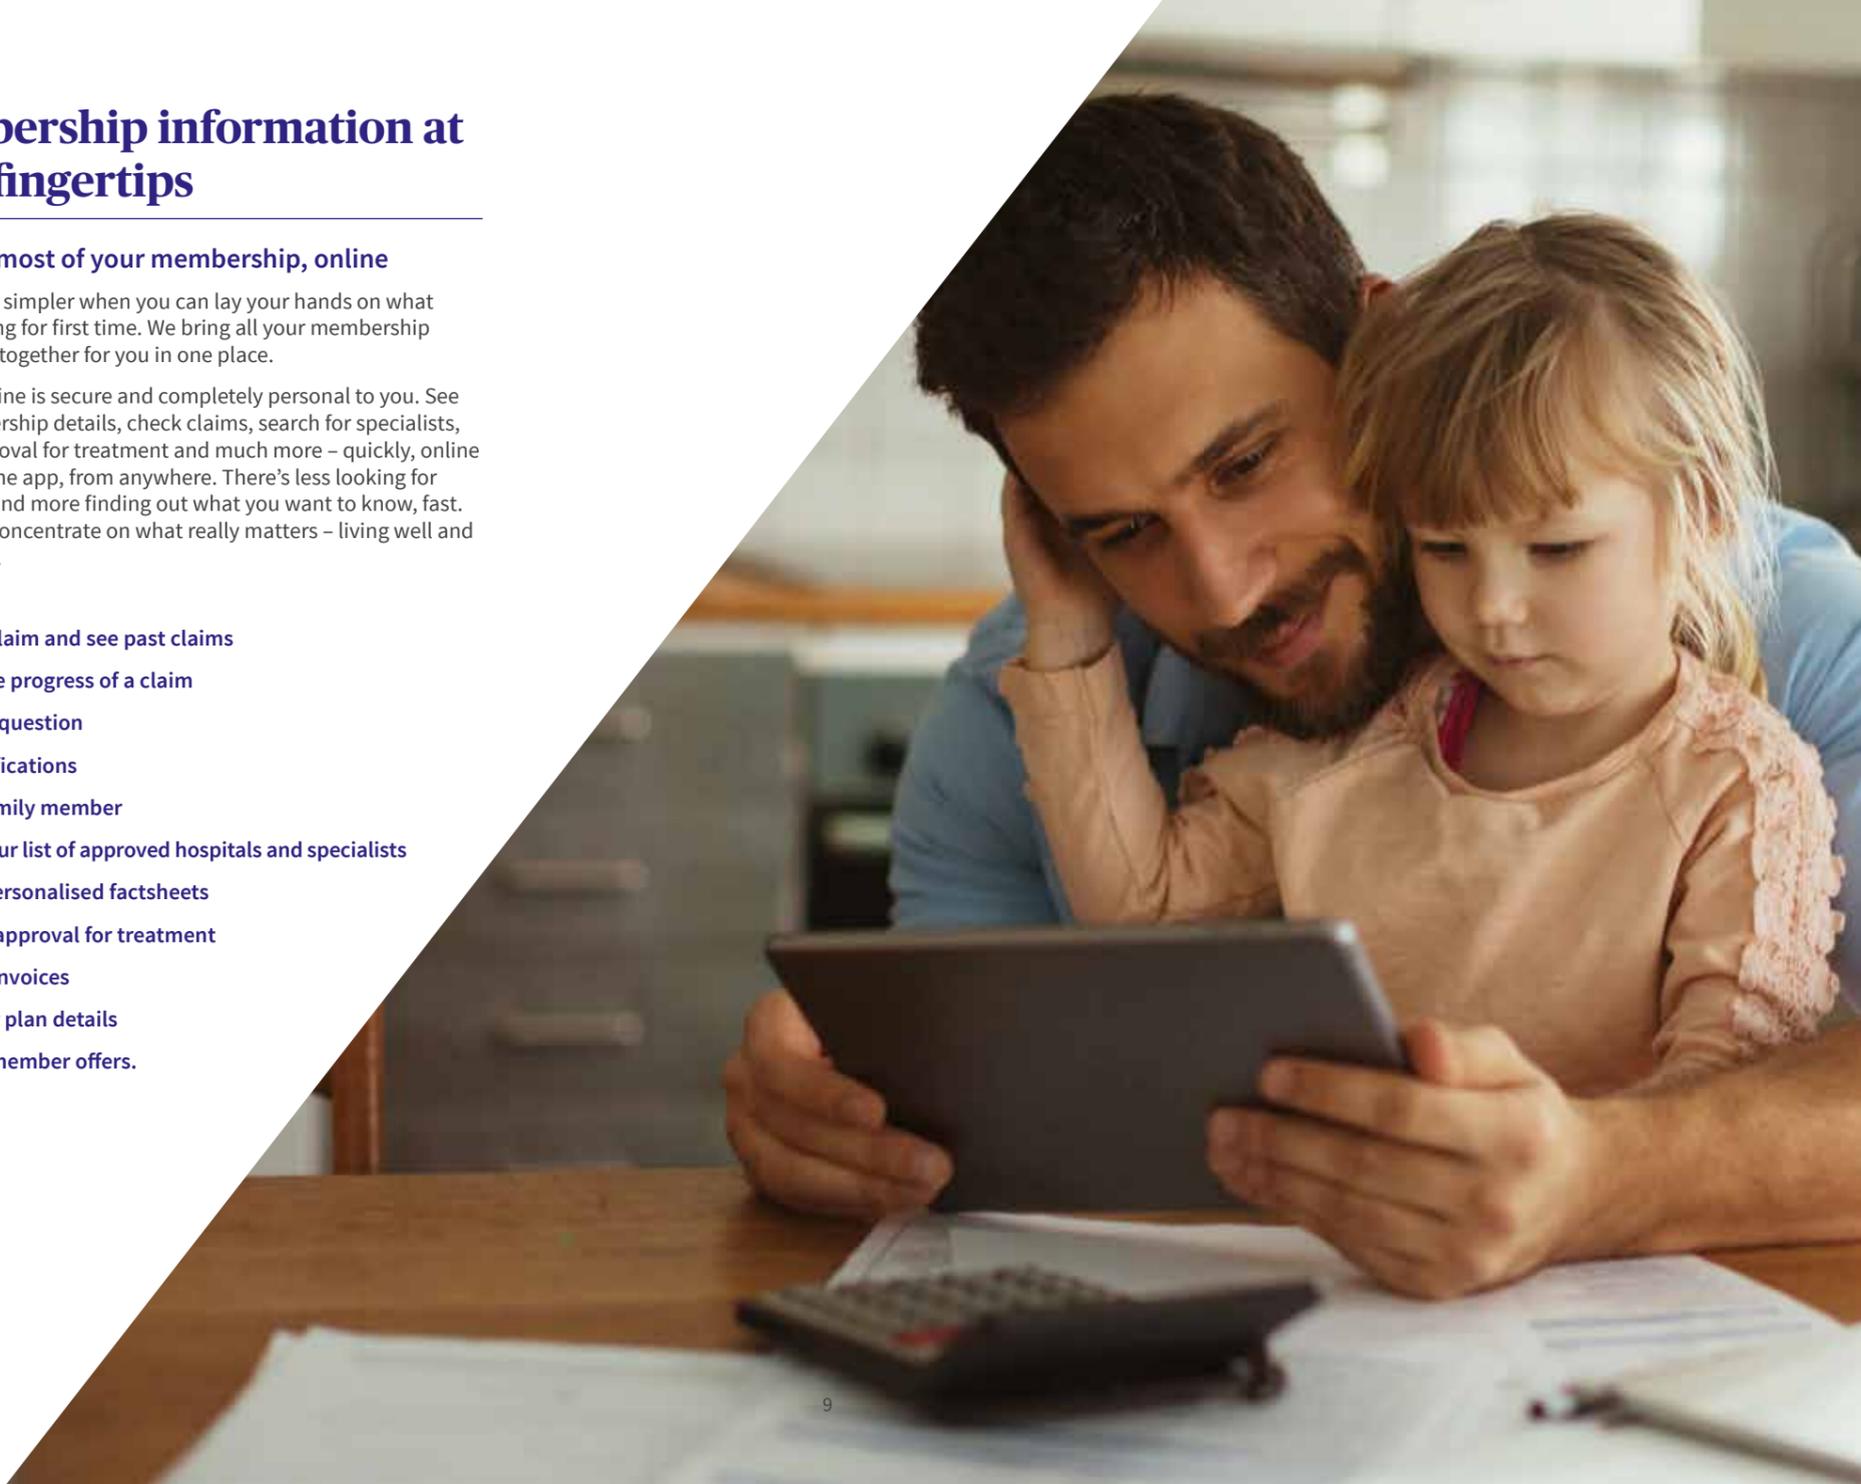

## Membership information at your fingertips

### Make the most of your membership, online

Life's always simpler when you can lay your hands on what you're looking for first time. We bring all your membership information together for you in one place.

Member Online is secure and completely personal to you. See your membership details, check claims, search for specialists, get pre-approval for treatment and much more – quickly, online or through the app, from anywhere. There's less looking for paperwork and more finding out what you want to know, fast. So you can concentrate on what really matters – living well and enjoying life.

# Choices that truly reflect the way you live your life.

## Create your Personal Health plan

With choices that truly reflect the way you live your life, we've made it easy to create healthcare cover that's right for you and your loved ones. Your broker can also help you put together a suitable package.

1. Start with your core cover
2. Add your options
3. Manage the cost of your subscriptions

### Your core cover: start with peace of mind

We know health. And we know healthcare. In the eight decades we've been helping people stay well, we've learnt exactly what goes into creating real peace of mind. So we provide it as standard with every plan we put in place.

Here's a summary what's included in every core plan	
In-patient and day-patient treatment	<ul style="list-style-type: none"> <li>Full hospital fees including operating-theatre costs, nursing care, drugs and dressings, specialist fees, consultations, diagnostic tests, CT, MRI and PET scans and physiotherapy. Just use a hospital from our Directory of Hospitals</li> </ul>
Out-patient treatment	<ul style="list-style-type: none"> <li>CT, MRI and PET scans at a scanning centre or hospital from our Directory of Hospitals</li> <li>Surgery – no yearly limit</li> </ul>
Extra support	<ul style="list-style-type: none"> <li>A nurse to administer antibiotics by intravenous drip at home</li> <li>Ambulance transport to another medical facility if you're receiving private in-patient or day-patient treatment</li> <li>A cash payment of £50 a night up to £2,000 a year when you have in-patient treatment free on the NHS</li> <li>Oral surgery for a number of procedures, paid in full</li> </ul>
Cover for children	<ul style="list-style-type: none"> <li>Hospital accommodation for one parent, and up to £100 a night towards a hotel (up to £500 a year), while your child under 16 is receiving eligible treatment</li> <li>Surgery to correct prominent ears for a child under 14</li> <li>Laser treatment to improve the look of a 'port wine stain' on the face of a child under 14</li> <li>Six sessions of speech therapy needed for a child under 14 as a result of a delay in their development</li> <li>Free cover on your plan for newborns until your renewal date (restrictions may apply)</li> </ul>
Comprehensive Cancer Cover	<ul style="list-style-type: none"> <li>Diagnostic surgery, CT, MRI and PET scans</li> <li>Specialist consultations with the specialist treating your cancer when you're an out-patient</li> <li>Chemotherapy and radiotherapy</li> <li>Support from one of our dedicated cancer nurses</li> <li>£100 a night charitable donation to a hospice where you're being cared for as an in-patient or at home</li> <li>External prostheses (limbs), up to £5,000 a year, and wigs up to £150 a year – when you're having treatment to kill cancer cells</li> <li>So long as you're a member, we'll cover your cancer no matter what path it takes, and we'll continue to cover treatment if it becomes terminal</li> </ul>

### Using the NHS for cancer treatment

As with all private medical insurance plans, your eligibility for cover depends on your medical history. Occasionally we won't be able to offer you comprehensive care for cancer because of your medical history. If this happens, you can feel reassured that we'll still make sure you have access to the drugs you need as part of your core plan.

If you have NHS Cancer Support instead of Comprehensive Cancer Cover, we won't pay for the treatment of your cancer. You'll use the NHS instead, or pay for the costs of treatment yourself.

During your treatment, if your specialist wants you to have a licensed cancer drug which the NHS won't pay for, we'll pay for that drug and the cost of the drug to be given to you. This doesn't include out-patient drugs as they aren't covered on this plan.

### What's not covered

To keep subscription costs down for everyone, there are some things we won't pay for. These include:

- ✗ Treatment of medical conditions that you had or had symptoms of before you joined (unless you've switched from another plan and have underwriting called 'continued medical exclusions')
- ✗ Pregnancy and childbirth
- ✗ Treatment of on-going, recurring and long-term conditions, such as diabetes or asthma. We also call these 'chronic conditions'
- ✗ Cosmetic treatment (except for birthmarks and prominent ears under our enhanced family cover)
- ✗ There are some specialists whose costs we don't pay in full, so it's important you call us if you need to claim

Full details of what we cover, what we don't cover and any limits to our cover can be found in the membership handbook.

## Your options: add what's important to you

Before you take out your plan, think about what's important to you and what you want to cover. Make a list of your priorities if you like. It'll help you decide which options to add to your core plan.

Here are the main options you can choose	
Standard Out-Patient option	<ul style="list-style-type: none"> <li>Up to three specialist consultations a year</li> <li>No yearly limit on diagnostic tests when your specialist refers you</li> <li>No yearly limit on practitioner charges when a specialist refers you (includes dieticians, nurses, orthoptists and speech therapists)</li> </ul>
Full Out-Patient option	<ul style="list-style-type: none"> <li>No yearly limit on specialist consultations</li> <li>No yearly limit on diagnostic tests when your specialist refers you</li> <li>No yearly limit on practitioner charges when a specialist refers you (includes dieticians, nurses, orthoptists and speech therapists)</li> </ul>
Therapies option	<p>Adds cover for out-patient treatment by physiotherapists, acupuncturists, homeopaths, osteopaths and chiropractors</p> <ul style="list-style-type: none"> <li>No yearly limit on fees</li> <li>Up to an overall maximum of 10 sessions in a year when your GP refers you, or when you have therapist treatment through our Working Body team</li> <li>Further sessions (as long as we agree them first) when your specialist refers you</li> </ul>
Mental Health option	<p>Extends your cover to include mental health treatment</p> <p><b>As an in-patient or day-patient</b></p> <ul style="list-style-type: none"> <li>Psychiatric treatment, including accommodation, diagnostic tests and drugs, paid in full at a hospital or day-patient unit in our Directory of Hospitals</li> <li>No yearly limit on specialist fees for psychiatric treatment</li> </ul> <p><b>As an out-patient</b></p> <ul style="list-style-type: none"> <li>No yearly limit on specialist consultations for psychiatric treatment</li> <li>No yearly limit on psychiatric treatment by psychologists and cognitive-behavioural therapists, as long as your specialist oversees treatment</li> </ul>
Dentist and Optician Cashback	<ul style="list-style-type: none"> <li>Dentist's fees – 80% of cost up to £400 each year</li> <li>Optician's fees – 80% of cost of prescribed glasses and contact lenses up to £200 each year</li> <li>£25 a year towards the cost of an eye test</li> </ul>
Extended Cover	<ul style="list-style-type: none"> <li>Cover for visits to a private GP for consultations up to £500 a year</li> <li>Cover when you use hospitals outside our Directory of Hospitals</li> <li>Cover for using AXA PPP healthcare recognised specialists</li> <li>Planned treatment overseas, up to the cost of the UK equivalent (when agreed by us in advance)</li> <li>Up to five consultations a year with a Doctor@Hand GP</li> </ul>
European or Worldwide Travel Cover	<p>Adds cover for emergency medical expenses abroad. Also includes cover for travel-related hassles like lost baggage, delays and lost passports. Plus personal accident cover and cover for on-piste skiing. And if you have the Worldwide Travel Cover, you'll also have cover for emergency dental treatment and business travel. With the Adventure Sports upgrade, you can add cover for activities such as bungee-jumping and paragliding.</p>

## Your costs: manage your subscriptions

Private healthcare cover is a way of getting the benefits of private healthcare, without the worry of how you're going to pay for it.

You pay regular subscriptions, then we pay for your treatment, as long as it's covered under your plan.

Of course, because Personal Health is all about peace of mind, you can adjust the cost of your subscriptions to make sure you're comfortable with what you're paying. We explain how.

### Select the Six-week option

If you're happy to use the NHS but you worry about how long it could take to get treatment, this option covers you. If you can get eligible treatment on the NHS within six weeks of when it should take place, you use it. If you need to wait more than six weeks, you go private straight away. (Out-patient appointments that you're covered for aren't affected.

You'll always be seen as soon as possible if you need one of these.)

You'll save more than 20% a year on your subscriptions and – if all's well – it won't be much longer till you're on the road to recovery.

### Choose your excess

With an excess, you decide how much of your yearly claims you'd be happy to pay yourself. Including an excess reduces your subscriptions – the higher the excess, the greater the reduction.

### Pay up-front

A simple way to **save 5%**. Pay your subscription yearly instead of monthly.

### Choose cancer support on the NHS

If you choose this option, or we're unable to fully cover you for cancer because of a previous medical condition, your cover will cost you less.

## Protect your no claims discount

Your no claims discount applies from the moment you join us – you don't have to be with us for years first.

We'll work out what your discount is and apply it to your subscriptions. Each year you renew, we'll review your discount until you could have our best ever **discount of 80%** on your subscription cost.

Sometimes, you can protect your no claims discount. Speak to your intermediary or broker for more about this.

**Good to know:**  
Therapies and cashback claims won't affect your no claims discount.

# Personal Health is all about peace of mind.

## Your health when you join us

We take account of your health when you join us so that we can work out your subscriptions and the cover we can offer you.

You can choose how we do this by either:

- **Telling us some details about your health**

We call this ‘full medical underwriting’. We’ll ask you for some details about your health and for reports from your GP or other medical practitioners, if we need them.

- **Joining us on the understanding that you won’t be covered straight away for conditions that you had in the five years before you joined.**

We call this ‘moratorium underwriting’. We won’t ask you any questions about your health when you join us. Instead, we won’t cover pre-existing medical conditions for two years.

When the two years are up, if you’ve been free of investigations, special diets, advice, treatment or monitoring of a condition you had before you joined, we’ll see if we can cover it for you.

### Sammy chose moratorium underwriting – this is how treatment for an old back injury was covered

### How moratorium underwriting may affect your cover for certain conditions

If you choose to join us on moratorium terms, there are some specific rules about diabetes, raised blood pressure and PSA tests.

We will exclude specified conditions from your cover for at least two years after you join if:

- you were already aware that you had diabetes when you joined, or
- you have had treatment for raised blood pressure (hypertension) in the five years before you joined, or
- you were already being investigated, monitored or treated as a result of a PSA (Prostate Specific Antigen) test to do with the prostate when you joined.

The specified conditions we will not cover are listed in the table below. We will not cover treatment for these specified conditions whatever the cause, even if they were not related to the pre-existing condition, and even if they develop after you joined.

Pre-existing conditions when you joined	Specified conditions we do not cover
If you have been diagnosed with diabetes	We will not cover treatment for: <ul style="list-style-type: none"> <li>■ diabetes</li> <li>■ reduced blood supply to the heart muscle (ischaemic heart disease)</li> <li>■ cataracts</li> <li>■ damage to the retina of the eye caused by diabetes (diabetic retinopathy)</li> <li>■ kidney disease caused by diabetes (diabetic renal disease)</li> <li>■ disease of the arteries</li> <li>■ stroke</li> </ul>
If you have had treatment for raised blood pressure (hypertension) in the five years before you joined	We will not cover treatment for: <ul style="list-style-type: none"> <li>■ raised blood pressure</li> <li>■ reduced blood supply to the heart muscle (ischaemic heart disease)</li> <li>■ stroke</li> <li>■ kidney failure as a result of high blood pressure (hypertensive renal failure)</li> </ul>
If you are being investigated, monitored or treated as a result of a PSA (Prostate Specific Antigen) test	We will not cover treatment for: <ul style="list-style-type: none"> <li>■ Any disorder of the prostate</li> </ul>

# Talk to your broker today about looking after you and your family with Personal Health.

### Switching to us is easy

Already have private medical insurance? If you’d like to switch to the benefits of a Personal Health plan with AXA PPP healthcare, just let your intermediary know. We’ll do everything we can to make your cover seamless. Even if the cover on this plan looks the same as your old plan, the terms and conditions may be different. Make sure this plan still gives you the cover you need.
